

Welcome to this Home in the Internet

This web site is meant to be *your home* where you can come any time to calm down by watching photos portraying the beauty of nature accompanied by some music, while at the same time meditating about our Creator who made this beautiful world for us to enjoy.

The content of this site is centered on the theme of *True Love*, a quality which we are to manifest through living for the sake of others. I am convinced that the way to find profound happiness lies in making other people happy - just as God created everything for us as His children to enjoy.

He provides unconditionally with a parental heart for you and me as His son or daughter, who are destined to live as brothers and sisters of one united human family while taking full responsibility for our actions and our surroundings. Through finding a deeper relationship to nature we will also learn to appreciate one other more, ultimately being able to love each other with all of our heart and soul.

This home in the vast dimensions of the cyberspace was created to support you in your meditation as a source of inner strength in order to be able to live harmoniously in the presence of God – whatever understanding you may have in respect to our Creator. People of all religious backgrounds are surely called to live peacefully together and build a world centered on love, the Kingdom of Heaven on earth, which starts in our own hearts when we inherit the love of our Ultimate Origin who invested everything into His precious creation.

Our individual growth towards perfection on the level of heart is naturally expressed in the relationship to the things which we use and in the quality of love we share with others, especially in the way we relate with one another as a *worldwide family under God*.

The page "*For Members*" refers to those who are dedicated to support the goal of building a united world of mutual care and understanding, be it as a member of the Universal Peace Federation or any other organization of the *Unification Movement*, about which you can learn more at the link: <http://youngjinnim.com/assets/images/pdfs/UM.pdf>

The internet allows sharing contents with people all over the world, but there are still limitations when it comes to larger amounts of bytes being transferred. In order for you to play the FLV file movies it is necessary to use a *FLV* or *VLC Media player* which you can download freely. In order to view the photo presentations properly please download/open the respective links rather than opening them directly. For instructions refer to the explanations at: <http://youngjinnim.com/vlc-movie-streaming-instructions>

Through the icon "*Contact*" you can address some lines to me directly. If you are interested in my personal background and attitude in life you may want to have a look at my sharing at the link <http://youngjinnim.com/assets/images/pdfs/attitude.pdf> to read a few lines which can help you to understand my heart and concerns better.

I am very sorry for the deficiencies you may find in this home. It is still being built and expanded and needs to be improved in quality. With your support we can make this home more and more beautiful and homely so that everybody will feel truly at home.

Wishing that you may find deep peace of mind through connecting closer in heart with God and His wonderful creation, most of all with His children who are each a precious being destined for eternal happiness based on manifesting True Love in all aspects of life,

I remain sincerely yours, Nikolaus Beutl
